

Napier Boys' High Online Learning Expectations

The school rules for interacting with teachers and students still apply, even though learning is occurring remotely – and we have high expectations for this. Anything you say or type is the same as if you were saying it in the classroom.

It is important for students to show high levels of respect in all their actions and to ensure they comply with the school's cyber safety and digital use agreement. Teams is not to be treated as a social platform between students.

Parents/Caregivers will be contacted if any inappropriate behavior occurs online.

Your obligations:

- Open TEAMS at your scheduled lesson time and join the meeting set by your teacher
- Engaging in the online 'lesson' and behaving in an appropriate manner online
- Checking TEAMS regularly and your school emails on Outlook for updated lesson information
- Organise your time; create and follow an online learning schedule
- Complete tasks and assignments with your highest level of effort
- Monitor your learning to meet expectations and submit work on due dates
